

OIL Efficiency PLAN

- ✓ annual tune-up
- ✓ 10% off repairs
- ✓ 10% off diagnostic fee
- ✓ priority service

15-POINT ANNUAL TUNE-UP

A tune-up will be performed once during the service agreement term during regular working hours. Please call to schedule. The tune-up includes the following:

1. Check and clean controls: thermostat(s) circuit, primary control and cad cell relay.
2. Check safety timing.
3. Clean flue pipe, inspect chimney base and check operation of draft regulator.
4. Clean electrodes, insulators, nozzle adapter and retention head.
5. Vacuum flue passages.
6. Replace nozzle, strainer and filter cartridge.
7. Check oil flow.
8. Clean and lubricate burner motor, fan blades, housing, air intakes and vents.
9. Check and clean belt, pulley and blower motor.
10. Lubricate blower motor.
11. Replace air filter.
12. Check burner pump coupling.
13. Lubricate circulator pump and motor.
14. Check fuel pump operations.
15. Perform combustion test and adjust burner for optimum performance.

OIL Comfort PLAN

OIL Premium PLAN

- ✓ annual tune-up
- ✓ free replacement of covered parts
- ✓ 10% off repairs for parts not covered
- ✓ priority service
- ✓ no diagnostic fee
- ✓ no after-hours charge for no-heat emergencies

COVERED REPAIRS for COMFORT plan

Free replacement for nearly 100 parts!

CONTROLS

- 24-volt transformer
- aquastat
- blower circuit board
- burner mount relay
- cad cell control
- cad cell eye
- cad cell relay
- circulator relay (1 zone only)
- double aquastat
- emergency switch
- high limit control
- high pressure regulator
- hydraulic jack
- low limit control
- low pressure regulator
- preference relay
- pressuretrol control
- primary control
- pyrostat
- reverse aquastat
- stack control

WARM AIR SYSTEM

- thermostat
- toggle switch
- triple aquastat
- triple aquastat relay
- air filter (1" disposable)
- blower belt
- blower fan belt
- blower motor (up to 3/8 hp)
- damper motor
- fan control

OIL BURNER PARTS

- fan limit control
- tpride cleanout cover
- cleanout cover basket
- tpride site door cover
- zone control board
- burner capacitor
- burner coupling
- burner fan
- burner flange
- burner flange gasket
- burner housing assembly
- burner master control
- burner motor
- burner switch
- buss bar transformer
- buss bar transformer leads
- cad cell assembly
- cad cell eye
- cad cell wires
- delayed oil valve
- delayed oil valve coil
- electrode assembly
- electrode wires
- end cone
- exposed low voltage wiring
- flare fittings
- fuel filter cartridge
- fuel filter cartridge gasket
- fuel filter complete
- fuel pump
- fuel pump bellows
- fuel pump bleeder
- fuel pump couplings
- fuel pump fittings
- fuel pump gasket
- fuel pump needle valve
- fuel pump seal
- fuel pump strainer
- ignition leads
- ignition terminals
- ignition transformer
- low voltage transformer
- low voltage wiring
- nozzle
- nozzle adapter
- nozzle assembly
- nozzle line
- porcelain insulators
- retention head
- riello capacitor
- riello photocell
- solenoid valve
- static plate

COVERED REPAIRS for PREMIUM plan

Our best coverage! Free replacement for all parts listed in the Comfort Plan PLUS 42 more!

- air scoop
- autofeed backflow combo
- automatic air vents (boiler)
- automatic water feeder
- backflow preventer
- bearing assembly
- circulator complete (1 per year)
- circulator coupling
- circulator impeller
- circulator motor
- circulator motor mounts
- circulator switch
- circulator wicking
- cleanout gasket
- cleanout plate
- copper pipe and fittings*
- damper motor
- draft regulator
- expansion tank
- extrol tank
- feed valve
- flow check valve
- hose cap
- hose cap washer
- low water cut-off
- low water cut-off float
- low water cut-off switch
- mixing valve
- pop safety valve
- purge air from heating system
- purge valve
- relief valve
- smoke pipe
- temperature pressure gauge
- thermostat (1 per year)
- turbulator
- zone control board
- zone valve complete (1 per year)
- zone valve motor
- zone valve power head
- zone valve relay
- zone valve stem

* in close proximity to boiler only.

ADDITIONAL COVERAGE

Water Heater

Our Efficiency Water Heater Service Plan includes a tune-up and a 10% repair discount. Our Comfort and Premium Water Heater Service Plans provide a tune-up and free replacement for these parts: T&P valve, thermostat and temperature control. Tank leaks are not covered under any of these plans.

TankSure® Protection

TankSure® is the best way to protect your aboveground oil tank. Using ultrasound equipment that is approved by the U.S. Environmental Protection Agency, we conduct annual tank tests. If your tank begins to fail, you're covered by a \$1,000 replacement warranty.

LOYALTY CREDITS

For each consecutive year you are enrolled in our service plan, you earn \$50 in Loyalty Credits. You can accumulate up to \$500 in credits and apply them to the following equipment purchased from us.

- ❖ **Boiler \$400**
- ❖ **Furnace \$300**
- ❖ **Oil tank \$200**
- ❖ **Oil burner \$100**
- ❖ **Water heater \$100**

TERMS & CONDITIONS

1. Oil service plans are available only to fuel customers who are on automatic delivery. A customer must have an account in good standing to qualify for a service plan. The price quoted is for an ordinary residential or a comparable size, semi-commercial system with a firing rate of up to 3 gallons per hour.
2. Jennings' responsibility under a service plan will automatically cease if heating oil or service on any parts or equipment covered by the plan is procured from another source.
3. A heating system tune-up will be performed once during the service plan term, during **regular working hours (7 a.m. to 3 p.m., Monday through Friday)** as scheduled by our service department. All tune-ups must be scheduled between March 1 and September 30. Time slots between October 1 and February 28 are reserved for emergency service calls and new service plan customers. Limited time slots are available for tune-ups. Scheduled tune-ups may need to be rescheduled to allow us to respond to no-heat calls and other emergencies.
4. Any labor and/or parts billed prior to acceptance of this agreement cannot be credited. **Repairs required to correct pre-existing conditions are not covered by the plan and will be charged at the company's normal rates.**
5. A heating system inspection is required before enrollment in the Premium Oil Plan. Jennings reserves the right to reject any service plan after inspection of the customer's heating system.
6. Each heating system must have an oil filter installed on the oil suction line before commencement of the agreement.
7. This agreement is not written on a pro rata basis and no refund will be made if it is cancelled by the customer prior to its normal expiration date or if other terms of this agreement are not met. In the event that the customer's house is sold, the unused portion of the contract may be transferred to the new homeowner at the sole discretion of Jennings. If the customer elects to pay for a service plan as part of a budget plan and then chooses to cancel the service plan or discontinue payments, the full amount outstanding shall accelerate and become due and owing.
8. These agreements cover only the replacement of defective parts listed on the plan descriptions. Among the parts or equipment excluded from all our oil heating service plans are: hot water coils, combustion chambers, oil tanks, oil lines, power venters, draft inducers, all piping and parts not in close proximity to the boiler, radiators, coin vents, heat exchangers, hot water tanks and air handlers. Coverage for steam systems and systems that contain antifreeze is not available under the Oil Premium Plan.
9. **This agreement does not cover parts or labor when failure is due to vacant or unattended premises; blown or loose fuses; emergency switch in the "off" position; thermostat set too low to call for heat or thermostats with insufficient battery charge; and lack of oil when delivery has been delayed due to delinquency in payment for oil. After-hour calls that don't require repairs are billable.**
10. Jennings shall not be held liable for the inability to supply or obtain obsolete parts not available through regular sources of supply.
11. Jennings is not responsible for the condition of the oil storage tank, its components or the accumulation of sludge, sediment, bacteria or water. Service calls related to the condition of the storage tank are not covered under this agreement.
12. This agreement does not cover service or replacement parts due to customer breakage, acts of nature, fire damage, flooding, freezing, explosions, power surges, equipment running on generator power or other causes beyond the control of Jennings.
13. It is agreed that if any tax or other charges are imposed by any governmental authority with respect to the sale, delivery or disposal of the products covered hereby, it will be added to the price to be paid by the buyer. A finance charge of 1.5% per month, for an annual percentage rate of 18%, is charged on items not paid 30 days from statement date. Service plans are not in force if account is 60 days overdue. If Jennings hires an attorney or collection agency to collect a past due balance, the customer agrees to reimburse Jennings for reasonable attorney fees and collection charges, along with all court costs.
14. Jennings shall not be held responsible for damage or resulting losses if fulfillment of the agreement shall be delayed or prevented by wars; acts of enemies; strikes; inability to secure technicians, parts, material or transportation; or by any other condition not reasonably within its control.
15. The length of this agreement is one year and will be automatically renewed each year at the prevailing rate unless we are notified of cancellation in writing 30 days prior.
16. This is the entire plan. This plan cancels and supersedes all prior plans.
17. The service plan includes only the repair and replacement of parts specifically listed herein that are defective due to ordinary use or wear and tear based on the judgment of Jennings. Jennings is not liable for frozen pipes and/or damage to contents of a house with frozen pipes that are due to a defective part. Jennings is not responsible for any consequential damage resulting from a faulty part.
